TECHNICAL SCHOOLS

Introduction

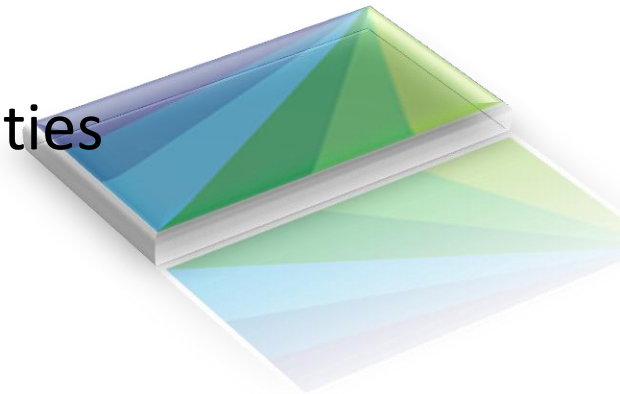

Richard van der Molen

Director Landstede Raalte

Domainmanager for

technical and logistic courses

Chairman International activities

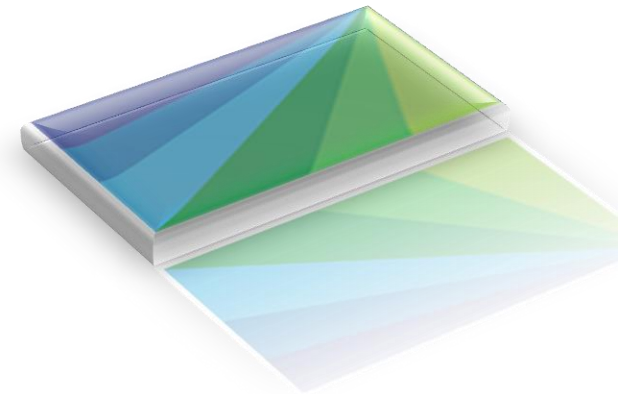

INNOTECS
INTERNATIONAL NETWORK OF
TECHNICAL SCHOOLS

Program

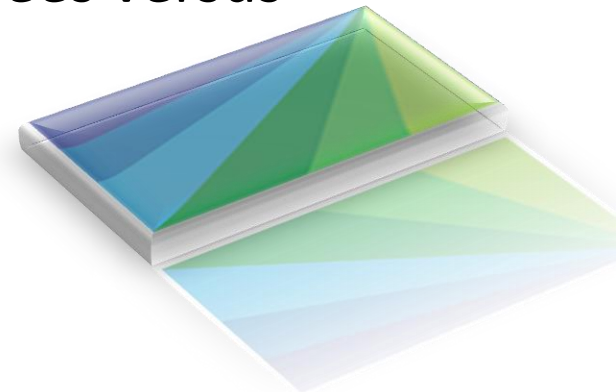

- Introduction and observations
- Problem definition + Goal
- Projectpartners
- Targets + Results so far
- Challenge

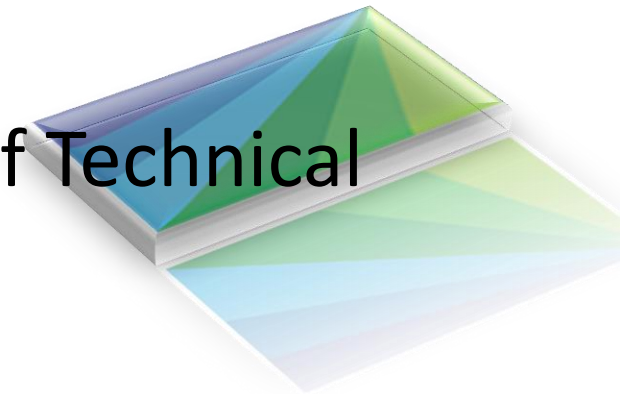

What do we see in the technical sector?

- High importance and potential for Technics
- Technics are a major field in economical portfolio (work, value) in Europe
- Pressure on Technical sector in Europe due to economical crises and competition outside Europe
- Quick developments/innovations
- Lack of good qualified young employees versus lack of jobs
- High rates of youth unemployment

What do we see in the VET sector

- In some countries and or segments difficult to find internships and projects for students
- Market expects development of new skills
- Limited cooperation between (European and global) technical VET schools
- Lack of a sustainable network of Technical VET Schools

So why did we start Innotecs ?

- Find partners for internships and projects for students
- Find partners for curricula development
- Find partners for exchanges of courses for students
- Find partners for study visits for teachers and management.

Initiative

9 Projectpartners, 6 countries:

Netherlands (Landstede, MBO Raad)

Portugal (Instituto Politecnico do Porto, Forave)

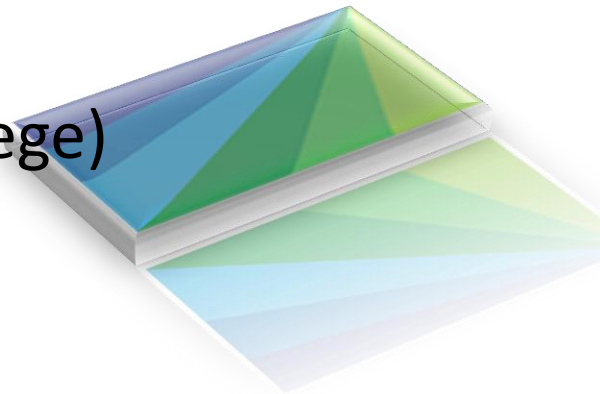

Spain (Politeknika Ikastegia Txorierri)

Finland (Sataedu)

Denmark (Tradium)

United Kingdom (Norton Radstock College)

Italy (IIS Brunelleschi/Lda Vinci)

INNOTECS
INTERNATIONAL NETWORK OF
TECHNICAL SCHOOLS

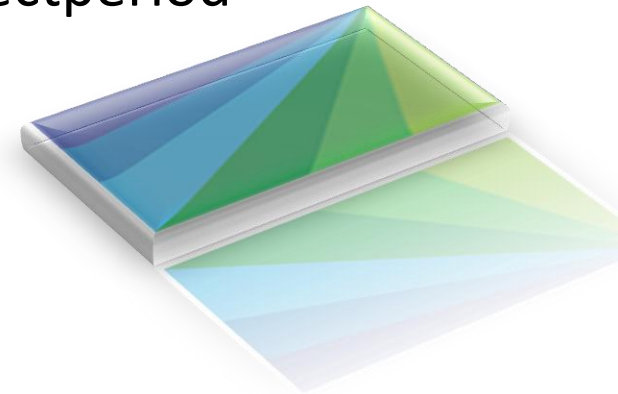

What's our goal

- Build an active Network in 2 years

INNOTECS

International Network Of Technical Schools

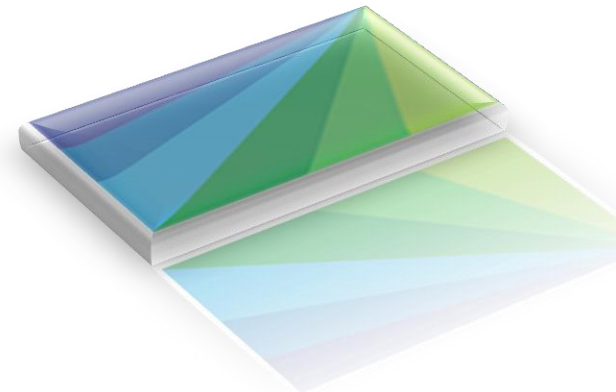

- Continuation after the projectperiod

Targets & Results (so far)

- 28 Technical schools (aspirant) member
 - ✓ Result : 31
- 14 countries involved
 - ✓ Result : 13
- 6 projectpartners-meetings in 2 years
 - ✓ Result : 3 in 1 year
- 2 Congresses (1 per year)
 - ✓ Result : 1 in 1 year

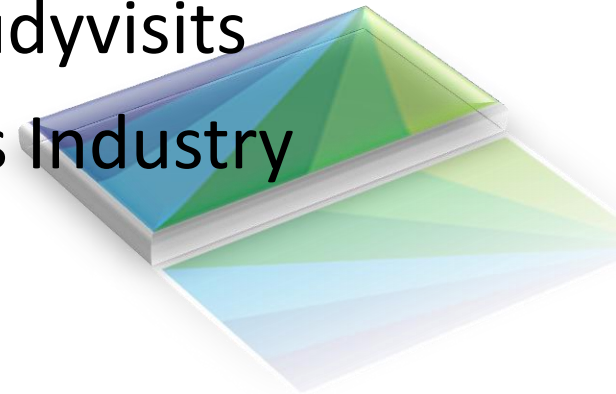

- www.innotecs.eu

Targets (to go)

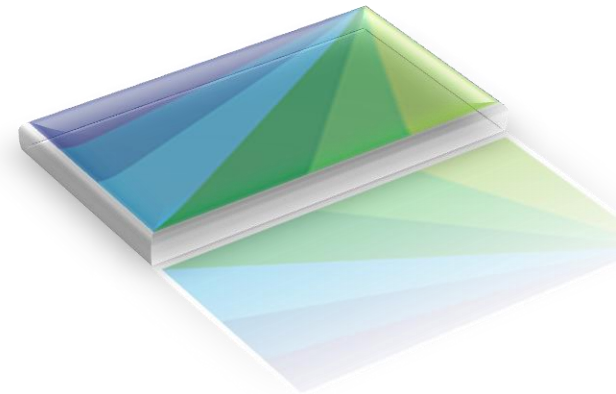

- 14 stakeholders / enterprises
- Agenda 2016-2020
- Advise for organizational structure
- Integration with PRAXIS
- Identification of possible studyvisits
- Inventarisation future needs Industry

TECHNICAL SCHOOLS

AND NOW

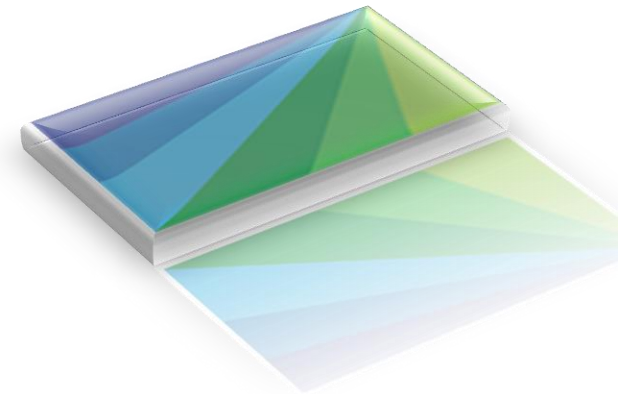

INNOTECS
INTERNATIONAL NETWORK OF
TECHNICAL SCHOOLS

Our challenge for today:

**Let's find out how creative we are
to make the first step
to give meaning to Innotecs
*as an active network we all benefit from!***
